

# PACEJET

Cut costs with time-saving shipping powers

## What is Cavallo's Pacejet Integration?

This connector to Cavallo's Customer and Order Manager brings fully connected shipping services to your distribution management software, ensuring each shipment that leaves your warehouse is on time and on budget. Pacejet's cloud-based platform offers reliable, intuitive, and powerful shipping procedures that lighten your shipping team's workload and ensure 100% accuracy, every time.

## You should use Pacejet Integration if:

- You spend lots of time weighing carrier options and comparing prices
- You want to simplify decision-making associated with shipping
- You're looking to save money on shipping-related costs

## What does it look like in action?

Pacejet works throughout your distribution cycle, automatically syncing data as sales are closed, so you have all the information you need to get the order out the door quickly and accurately. Pacejet exists to save you time, so manual tasks like validating a customer's mailing address, checking each carrier for costs and timelines, and forwarding the buyer and CSR tracking information all happen automatically and accurately.

## With Pacejet, you can:

- Quickly compare carrier rates
- Leverage freight auditing to identify areas for savings
- Improve your shipping times while spending less money

## How can I expand my software tool kit?

Pacejet Integration is just one tool in your distribution software toolkit. Build out your complete distribution software solution with Cavallo's additional features and modules — including next-level functionality like automated tasks and workflow, CRM tools, EDI, barcoding, and plenty more. Elevate every process in your distribution operations cycle, from selling to order fulfillment to shipping and payment collection, and accelerate their efficiency by uniting them under one powerfully flexible solution.
