SALESPAD BY CAVALLO + Avalara

AVALARA INTEGRATION

Automate your tax processes with ease

Tax Automation Made Simple

With frequently changing tax rules, it's hard to keep up with the regulations. Automate your tax calculation, manage your tax schedule with ease, and stay tax compliant 100% of the time with the SalesPad® by Cavallo and Avalara Integration. With Avalara AvaTax, you can leave your tax processes in the hands of experts, and seamlessly link all your data from SalesPad.

Seamless Integration

Implementing this tool is quick and simple with seamless integration between SalesPad and AvaTax. Send your transaction data from SalesPad directly to AvaTax, and the latter will calculate the total while your customers and employees can see the tax owed in real time. Navigate your dashboard with ease and quickly find important information in your transaction history. AvaTax is regularly updated to reflect changing sales tax rates and rules, so you can be assured that you're staying tax-compliant.

"AvaTax is the best. It calculates all our rates. We don't have to worry about it. If we needed to turn on 15 more states tomorrow, we know we could."

- Andrea Riviezzo, Inovonics

◎ Accurate, efficient tax calculation

⧆ User-friendly, no code solution

⚠ Fewer manual processing errors

Avalara

Avalara is a tax compliance leader, specializing in end-to-end solutions for all of your tax management needs. Stop wasting time searching for answers to your tax questions. Tax compliance is complicated, with rates changing from country to country and even state to state. With Avalara, you can rest assured that you're meeting requirements while also streamlining your transactions to boost customer satisfaction.
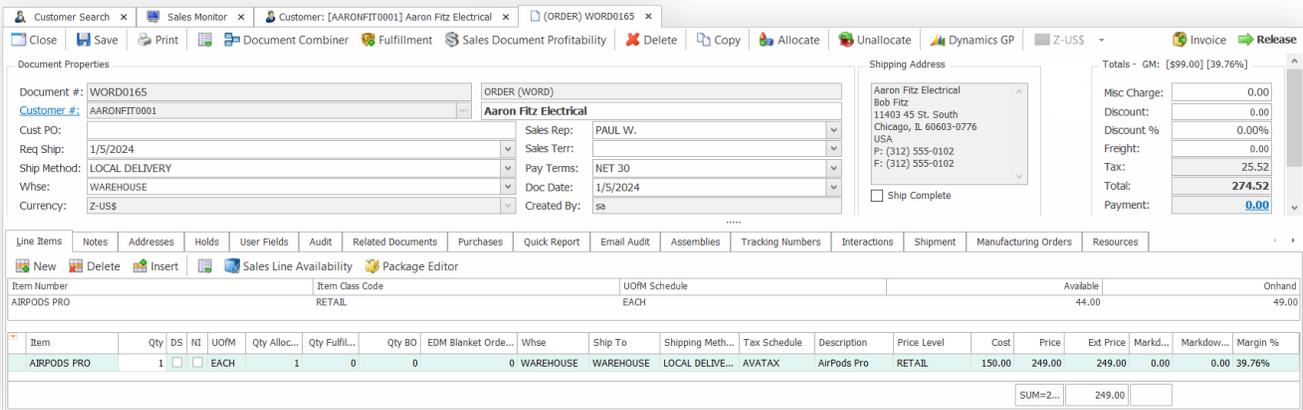

Why should I automate my tax management?

· **Efficiency:** Save time and money by automating tax compliance management and eliminating manual work

· **Accuracy:** With real-time tax calculations, Avalara always gets it right

· **Customer satisfaction:** Instant tax calculations make transactions easier for customers

· **Risk management:** Lower your company's risk with the accurate results that Avalara provides

· **Growth:** Redirect resources to high-value initiatives that maximize potential

Key Features

- **Fast implementation:** A direct connection between SalesPad and Avalara enables a fast setup and easy integration

- **Automatically calculate tax:** Sales tax is calculated instantly, so your customer doesn't have to wait

- **Tax compliance:** Be confident that you are meeting regulatory requirements with accurate calculations

- **Maintain tax schedule:** Returns are filed on time every month, quarter, or year

- **Address validation:** Validate addresses at the point of sale, so you can be sure the right tax amount is applied

- **Customization:** With advanced transaction rules, tailor the integration to your specific industry and location needs

- **Detailed reporting:** Round-the-clock access to your transaction history is invaluable, especially when undergoing an audit

- **Filing assistance:** Quickly and easily prepare returns with your AvaTax transaction data

Accurate and Automatic

SalesPad's Avalara Integration automatically calculates sales tax instantly to save you time and money
